RISK OF ELECTRIC SHOCK
WARNING Before proceeding further disconnect from electrical supply.
CAUTION This device is to be serviced only by properly trained service personnel.
WARNING Certain internal parts are inherently not grounded and may present a risk of electric shock when servicing. Do not touch the following parts while the appliance is energized: fan motor, blower motor, turntable motor, damper motor, and any other parts that are not grounded.
WARNING When replacing fuses in the unit, check operation of door interlock and interlock monitor circuit and replace any faulty components.
WARNING For continued protection against electric shock, replace only with:
1. THE SAME RATED OR LOWER FUSE FOR MAIN SWITCH LEFT
2. THE SAME RATED OR LOWER FUSE FOR MOTOR SWITCH RIGHT
3. THE SAME RATED OR LOWER FUSE FOR MISCELLANEOUS FUSE INTERIOR FOR FUSE
LATCH BOARD
FUSE
CAUTION Before servicing discharge the high voltage capacitor by short-circuiting the high voltage capacitor terminals.
WARNING For continued protection against electric shock, remove any and all electrical parts from the unit before servicing. Do not use an adapter. Do not use an electrical shock repair plug. Do not use an adapter. Do not use an electrical shock repair plug.
Failure to follow these instructions can result in death or electric shock.

WARNING To provide continued protection against electric shock, connect to properly grounded outlets only. Disconnect appliance before servicing. Removal of enclosure with product energized may expose serviceman to hazardous high voltage potentials.
CAUTION This device is to be serviced only by properly qualified service personnel. Consult the service manual for proper service procedures to assure continued compliance with the Federal Performance Standards for Microwave Ovens and for precautions to be taken to avoid possible exposure to excessive microwave energy.
WARNING Certain internal parts are intentionally not grounded and may present a risk of electric shock only during servicing. Service personnel - do not contact the following parts while the appliance is energized: fan motor, blower motor, turntable motor, damper motor, L transformer or heat sink.
WARNING Automatically operated device - to reduce the risk of injury, disconnect from power supply before servicing.
USE 120-130 VAC 20-50 W HALOGEN LAMP FOR REPLACEMENT
WARNING 1. DISCONNECT POWER SUPPLY CORD BEFORE REPLACING LAMP. 2. ALLOW LAMP TO COOL. 3. DO NOT TOUCH LAMP GLASS.
WARNING CONSULT THE SERVICE MANUAL FOR PRECAUTIONS TO BE TAKEN TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY.
DISCONNECT APPLIANCE BEFORE SERVICING
WARNING TO ENSURE CONTINUED PROTECTION AGAINST SHOCK HAZARD, CONNECT TO PROPERLY GROUNDED OUTLETS ONLY.
WARNING CONSULTER LE MANUEL DE SERVICE POUR LES PRECAUTIONS A OBSERVER AFIN DE PREVENIR TOUTE EXPOSITION A L'ENERGIE DES MICRO-ONDES.
DISCONNECTER L'APPLIANCE AVANT TOUTE REPARATION
AVERTISSEMENT AFIN D'ASSURER UNE PROTECTION CONTINUE CONTRE LES RISQUES DE CHOC ELECTRIQUES, REBRANCHEZ LE FIL DUE SUR UNE PRISE DE TERRE.
