Re: PCS Licensed Transmitter held to ear
FCC ID: BEJVS400
DOC to FCC ID: BEJVS400

To Whom It May Concern:

LG Electronics Inc. on behalf of LG Electronics USA hereby certifies that the wireless telephone (FCC ID: BEJVS400) processes 911 calls in a manner that it believes to be consistent with Section 22.921 of the Commission's Rules. The procedure recognizes when a 911 call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call. Once a 911 call is made, the user will be provided visual feedback that a 911 call is in progress. If the call is not connected to the currently acquired network within 17 seconds, the phone will try other networks, including both analog systems and all other compatible digital networks. Upon the interruption or the normal ending of a call, the phone will remain in the emergency call back mode to await a callback from the Public Safety Answering Point for up to five minutes. This attestation statement supercedes the earlier statement.

Sincerely,

A handwritten signature in blue ink, appearing to read 'E.S. Park', is written over a horizontal line.
