6/29/2000

Mr. Andy Leimer

FCC

SUBJECT: Audiovox Model No. FR-540

REFERENCE: TC97816

1. I again spoke with a the engineer at the factory and the factory has agreed that they will setup a test fixture to measure ERP so that they can insure that they do not exceed 360mWatts on the unit.
2. Attached is a revised alignment instructions.
3. The seperation distance between the antenna an the body is at least 2.5cm or 1.0”.

If you need anything else please let me know.

Sincerely,

Sid Sanders
