Ms. Katie Hawkins

FCC

SUBJECT: FCCID: BGAFR560

REFERENCE: EA97864

With reference to your email of 7/12/00;

1. You are correct, this UUT does not have any adjustments, it is only a verification of power output.
2. This was a typographic error and the power output should be 360mW.
3. The maximum duty factor is 50%.
4. There is a clip-on speaker-mic available for this device. When worn on the belt, the separation distance is LESS than 1 inch (2.5 cm). Please refer to the revised RF exposure safety statement.
5. Also uploaded at this time is a revised RF exposure safety statement to be included in the users manual.

If you have any questions please let me know.

Sincerely,

Sid Sanders
