RE:: Submitting Additional Information Regarding Cellular Telephone Transceiver  
FCC ID: BGBMT254XFOR6A  
731 Confirmation No.: EA95160  
Correspondence Ref. No.: 10215

Dear Mr. Czumak:

We wish to reply to your e-mail dated October 15, 1999 as follows:

1. **Line Entry for CDPD Browser for Internet Access** – The CDPD Function uses GMSK modulation. Test Data is provided with this application for this mode of operation. Therefore, we do not believe an additional line entry is required.

Our MT151 Phone (FCC ID: BGBMT151XFOR6A) also uses the same modulation for the CDPD Function and The Commission accepted it as “28K8FXW”.

Please confirm if we should change this designation for this application, and future applications.

If you have any questions or require additional information, please contact me.

Sincerely,

R. Gruhlke  
Director  
Regulatory Liaison Division  
RG/sst
