---

Hi Mike,

Q1, Q2 & Q4: The WLAN module's block diagram, schematics and user manual are attached.

Q3: The test report has been modified as attached.

Q5: The revised system schematics are attached. And, this product doesn't have battery function.

Q6: The power adapter doesn't have a ferrite core. Please refer to the attached external photo.

Best regard,  
Ting

Notice\_content

Question #1: Please provide functional block diagram for WLAN card. ( only notebook block diagram is provided )

Question #2: Please provide schematic diagram for WLAN ( only notebook schematic diagram is provided )

Question #3: Page 4 of test report indicates the antenna gain is 1.83dbi but in MPE estimate section of test report, antenna gain is listed as 5.63dBi. Please review antenna specification sheet and make necessary correction.

Question #4: Please provide WLAN portion of user manual.

Question #5: As indicated in the schematic diagram for notebook computer, this device is equipped with battery circuitry. Please explain when the device is equipped with battery function, will this device be used as lap held operation ?

Question #5:Ferrite core is added to the DC line of power adapter. Please provide modification report signed by the applicant to indicate the modification will be implemented in the final production unit.
