

CLO-001

Antenna specification
WLAN

Specification

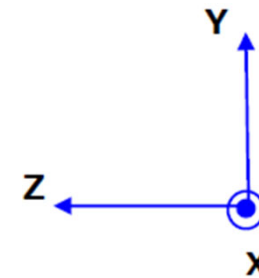

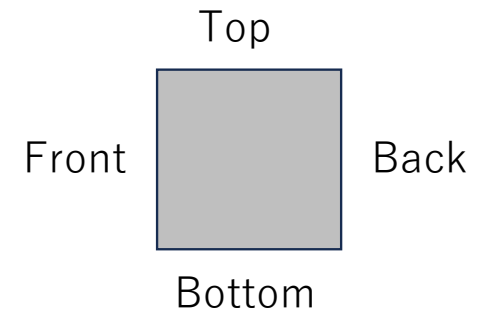

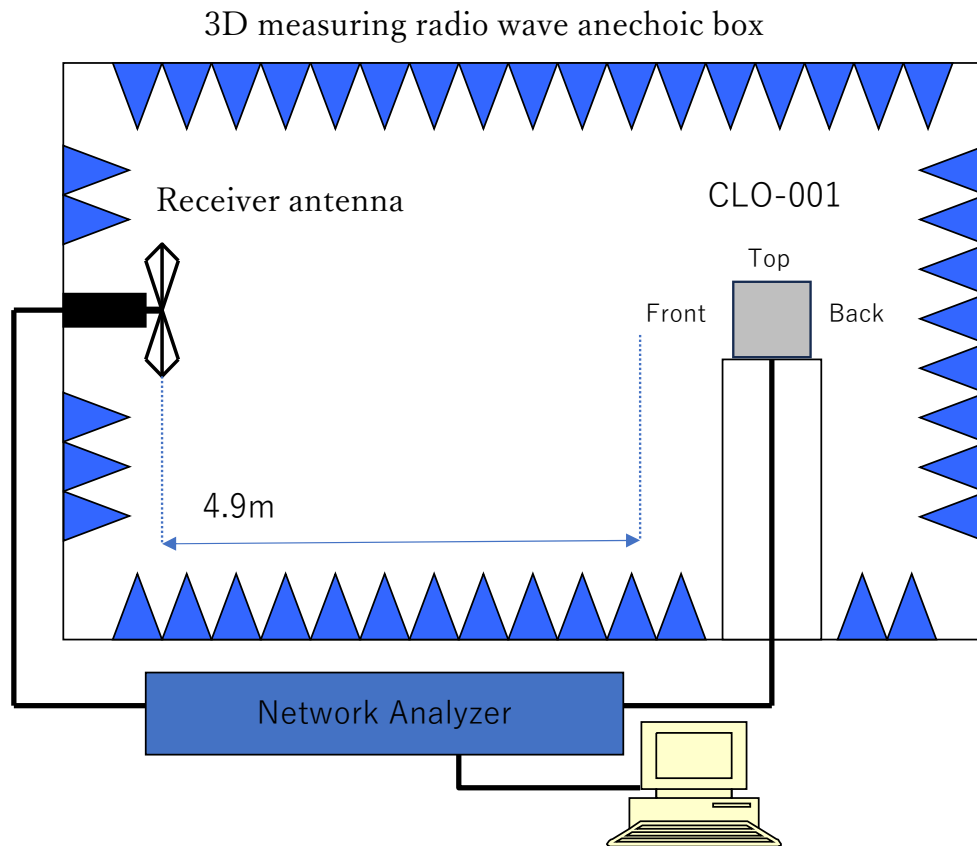

Antenna Specification

Antenna type	Inverted-F Antenna on PCB
Frequency range	2400 – 2484MHz
Antenna peak gain	+3.85dBi

Measurement Information

Test date	February 22nd, 2024
Engineer	Bessel
Calibrated measuring instrument	Network Analyzer : E5071B - Maker: Agilent - Calibrated day: March 15th, 2023
Commercial test software	EMQuest 1.08 (Maker: ETS-Lindgren)

Measurement method

Measurement direction of CLO-001

Antenna radiation pattern
