**Request for Class II Permissive Change**

August 12, 2020

Federal Communication Commission  
Equipment Authorization Division  
Application Processing Branch  
7435 Oakland Mills Road  
Columbia, Maryland 21046

FCC ID : BKEHAT002  
Applicant : Nintendo Co Ltd

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: BKEHAT002, originally granted on 04/18/2017 and all its permissive changes.

We changed the following points from the original model.

- Change of SoC
- Change of Memory
- CPU Board is changed due to the above two components.

Please refer to attached "Theory of Operation-Differences" for details of these modifications.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

<input checked="" type="checkbox"/>	Test Report
<input type="checkbox"/>	RF Exposure
<input type="checkbox"/>	External Photo
<input checked="" type="checkbox"/>	Internal Photo
<input type="checkbox"/>	User Manual
<input type="checkbox"/>	Label Drawing/ Location
<input checked="" type="checkbox"/>	Block Diagram
<input checked="" type="checkbox"/>	Specification
<input checked="" type="checkbox"/>	Schematic Diagram
<input type="checkbox"/>	Parts List

This time, we performed the spurious testing and confirmed that this product still meets the minimum requirements of the applicable rules of FCC. Since there is no change in shape of enclosure and the component layout related to RF characteristics including the antenna between the original model and the new model, the SAR testing on the new model is not required and is waived. Please refer to the test report submitted with this application.

Thank you for your attention to this matter.

Sincerely,

Y. Tanaka  
Yoshihiro Tanaka  
Nintendo Co Ltd
