Subject: Permissive Class II change for FCC ID: BKMWN6501C

Dear Sir,

The Wireless LAN Card, Model No.: WN6501CEP, FCC ID: BKMWN6501C need to apply for the Class II Permissive due to change the power amplifier. The reason that client must change power amplifier is original power amplifier is pahse out and will no longer sale in the market, however, the specifications are exactly the same, and we evaluated that the changed would NOT affect the RF characteristics except for the Radiated Spurious Emission & Band edge.

The product has conducted the Radiated Spurious Emission test and Band-edge test and compliance with the CFR 47 Part 15 Subpart C 15.247, CFR 47 Part 15 Subpart E 15.407 and relative regulations. For more details, please refer to the test report.

If you have any question, please feel free to contact me.

Best Regards,

Jerry Liu
