DVF series Transmitter FCC Certification Application

Application for Equipment Certification

EXHIBIT F Tune-Up, Installation and Operating Instructions Harris DVF series Transmitters

The Harris DVF series transmitters are entirely solid-state and broadband. Tune-up in the conventional sense does not exist for these transmitters. However there are certain adjustments which may be carried out as needed by the user. These are described in detail in the two technical manuals included with this application as EXHIBITS D and E.

EXHIBIT D – Installation and Operating Instructions – Atlas Mobile DVF

Full installation instructions for the transmitter are in EXHIBIT D, Section 2, pages 2-1 through 2-43.

Operating Instructions are in Section 3 of EXHIBIT D.

EXHIBIT E – Installation & Operating Instructions – Apex Mobile Exciter

Installation instructions for the exciter are located in Section 2, pages 2-1 through 2-11.

The Exciter is operated as a part of the transmitter, but information on operating features and procedures for the exciter are included in Section 3, pages 3-1 through 3-54.
