

CONFIDENTIALITY REQUEST

November 26, 2001

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Att: Richard Fabina
Chief, Equipment Authorization Branch
Re: FCC ID:BOUTSU6000 granted via Timco Engineering as a TCB grant on 5/03/01.

Gentlemen:

The subject FCC ID was issued a grant of certification by the referenced TCB, Timco Engineering, on May 3, 2001. There are items available on the FCC web site that Phillips Industrial Activities considers confidential that should not have been made available to the public, specifically the block diagram, operational description and schematics. This oversight or logistics error has resulted in an identical clone appearing in the marketplace which Phillips is certain could not have happened if the above information had not been accessible via the FCC web site.

Notwithstanding any release of confidential information that has already occurred, Phillips is deeply concerned about the continued availability of this material on the FCC web site and wishes to have the above material marked confidential and withheld from routine examination by the public. What procedure must they follow in order to assure that the following material is marked confidential as expeditiously as possible?

1. Circuit diagrams submitted as Equipment Authorization electronic filing attachment: "Schematics".
2. Block diagram submitted as Equipment Authorization electronic filing attachment: "Block Diagram".
3. Technical description submitted as Equipment Authorization electronic filing attachment: "Operational Description".

Specifically, these exhibits contain information relating to circuit function and complexity that could be of benefit to competitors. The material contains trade secrets and confidential information that Phillips Industrial Activities does not customarily release to the public and which is otherwise not generally available to the public.

Please contact the undersigned by telephone at 410-531-3439, by fax at 410-531-0807, by email at jinglis@erols.com, or by correspondence at the address below if there are any further questions or additional information needed concerning this filing.

Regards,
(signed)
