

To: FCC Examiner

We are submitting the following document as the user's guide for the DR10000. Note that the document actually describes a product called the SNAP2410. This is our (Digital Wireless's) name for the DR10000. We are in the process of re-writing the document to reflect the name change to DR10000. However, as of writing of this letter, that task was still incomplete. We therefore request acceptance of this document in lieu of the actual guide.

Sincerely,

Mark Tucker
VP of Engineering
Digital Wireless Corporation
