Dear Mike,

#1 and #2: Please find the revised tune-up procedure.
#3: The labelling requirement of Part 95G was added. Please find attached the revised ID label.
#4: The microphone cord or external antenna(AT0529A) when plugged into mic jack is the antenna of this equipment.

Best regards,

S. S. Liou
Engineer / EMC Dept. II
Electronics Testing Center, Taiwan

Question #1: In the tune-up procedures, it stated that this device complied with Part 74 of FCC rules which does not agree with the applicable technical standard. Please make necessary correction.

Question #2: Since this LPRS transmitter is designed to use specific channel, please update the frequency range in the tune-up procedure based upon the channel mapping listed in section 95.629(c).

Question #3: Please address section 95.1017 labeling requirements.

Question #4: Please point out the antenna location in the internal photos.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
