

Installing the Power Cord

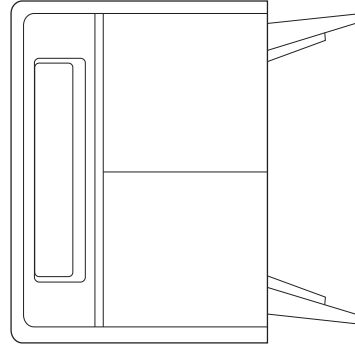

Installing the Power Cord

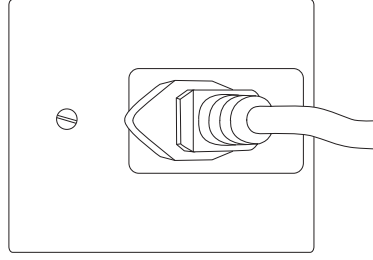

①

Attach the Power Supply Cord to the table.
Warning: Do not attempt to install the power cord until the legs are installed.

②

Lift up your table and carefully place it down on its legs.

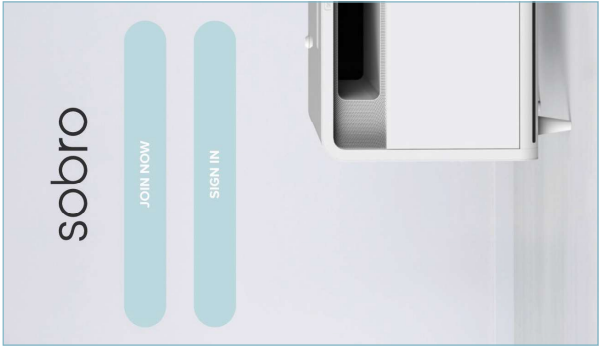

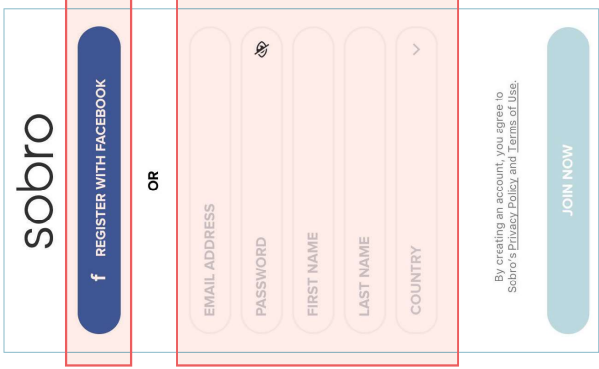

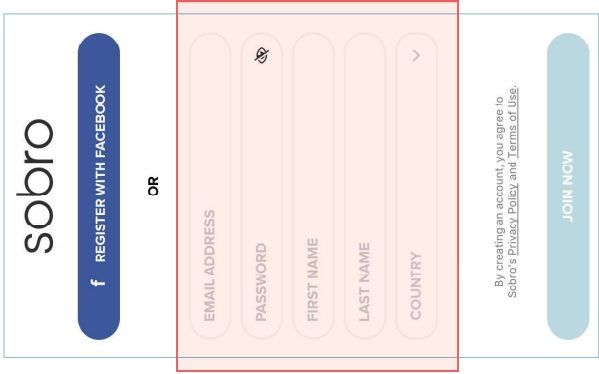

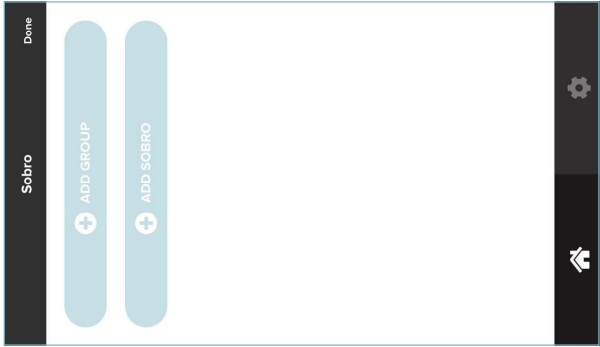

③

Attach the Power Supply Cord to the wall.

Important: This appliance must be plugged into a grounded socket. The power cord that is supplied with the appliance contains the appropriate grounding conductor and grounding plug. The plug must be inserted into a wall outlet that has been grounded in accordance with the existing local codes and ordinances. The required nominal voltage and frequency are indicated on the rating label. Consult a qualified electrician for other concerns. We do not recommend plugging the Sobro into a power strip.

 Connecting the Sobro App	 Open the app and click "JOIN NOW" to create your account.	 Connecting the Sobro App	Single Admin  Admins have full control over the Sobro Smart Side Table, and can set the Alarm, Bedtime, and Sleep Sounds, as well as control the lights and the freezer. As a single Admin, register with Facebook or create an account using an email address and password.	Multiple Admins  If you have Multiple Admins in your household, it's easiest to use email to set up, selecting a password you feel comfortable sharing with other users. While multiple mobile devices can be linked to the Sobro, Multiple Sobro App accounts cannot. The easiest way to connect multiple devices is by the login information for your single Sobro App account.	22 · connecting the sobro app 6/14/19 5:17 PM
--	--	---	---	---	--

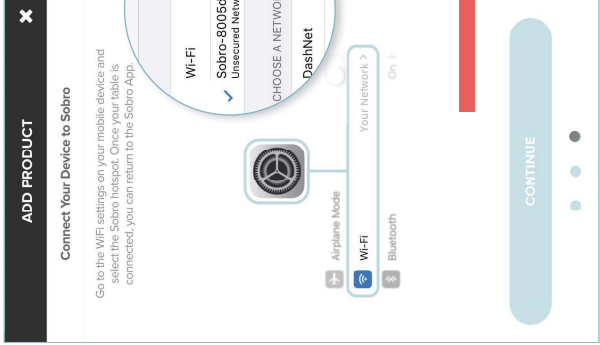

Once you've logged in, begin by clicking "Add Sobro" and selecting the model of Sobro product you're setting up.

You'll see a screen with brief setup steps, and then you'll be prompted to enter the password of your WiFi. Make sure that your mobile device is connected to the WiFi you wish to connect the Sobro to.

You'll be prompted to hold down the Sobro Hotspot Button at the back of your Sobro table.  This is the Hotspot Button.

Once the light on the Sobro is pulsing, you'll be directed to open the Settings app in your mobile device, where you'll see a local WiFi "Sobro-xxxx-xxxx." Choose that network.

Connecting the Sobro App

Connecting the Sobro App

You'll be asked to return to the Sobro App. Your phone is now connected to the Sobro's temporary WiFi hotspot.

You'll now be prompted to replace the temporary WiFi with your own WiFi. The app MAY connect automatically by pressing continue, but if you receive an error message, exit the app and try manually selecting your WiFi through Settings. Then return to the Sobro app.

When you return to the Sobro app, the Sobro should connect after a short loading screen.

Once connected, you'll see a home screen with all of your Sobro devices. From here, you can turn the front and back lights on and off, or click through for more features.

Connecting the Sobro App

To remove a Sobro device from your Sobro App, press the "Edit" button in the upper right-hand corner of the screen, and then press the red minus symbol.

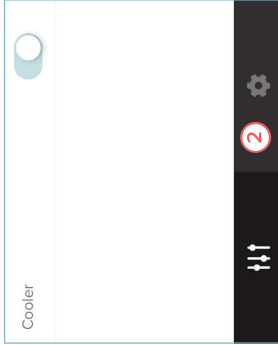

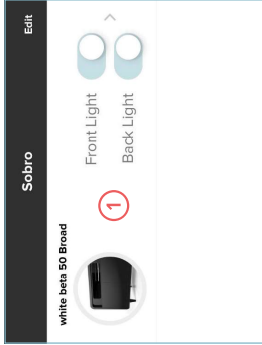

Adding a Guest to Your Sobro

Add a friend as a Guest to give them control over the Sobro's light and Cooler Drawer functions. Have the guest download the Sobro App and create their own account. No login is needed to play music through the Sobro's Bluetooth speakers.

To allow another person full Admin control (including the alarm and sleep features), let them use your Sobro email login to connect their Sobro App.

Important: You cannot control a single Sobro Smart Side Table directly with multiple Sobro App accounts. Share your account login or add a Guest.

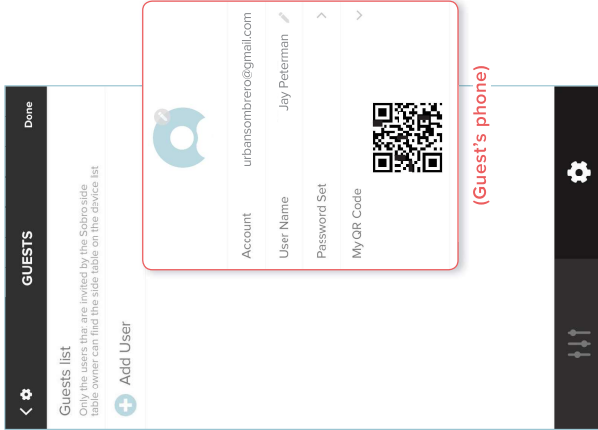

① Click on the side table.

② Click on the gear at the bottom of the Controls screen.

Sobro Side Table Manual Final v4.indd 30-31

Cleaning & Maintenance

Clean the Sobro regularly to avoid the accumulation of dust. Wipe the surface of the table with the included microfiber cloth.

Use a small hand-held vacuum or a soft brush to clean any dust. Do not use abrasive or sharp tools to clean your Sobro.

If you are powering off the table for an extended period of time, clean and dry the Cooler Drawer and store the Sobro in a clean, dry location. Do not place any parts outdoors.

Before cleaning the Sobro, please make sure to turn off the table and remove the plug. Do not submerge or douse any part of the appliance with water or any other liquid. Do not use abrasive or corrosive cleaning agents to clean the Sobro.

IMPORTANT: Do not put ice in the cooler drawer as it may melt and damage the unit.

How To Prevent Odor Build-up:

Foods that may expire easily should not be placed in the Cooler Drawer. Only store non-perishable items in the Cooler Drawer. Store foods in sealed plastic bags.

Keep the Cooler Drawer clean and dry. Clean the drawer on a regular basis

How To Remove Odors:

If your Cooler Drawer begins to develop an odor, clean the Cooler Drawer with a non-corrosive or non-abrasive cleaning agent. Dry the Cooler Drawer with a soft cloth and shut the drawer for 24 hours to remove the smell.

Troubleshooting & Customer Support

For product support, warranty, and maintenance related questions, please contact StoreBound directly at:
1-800-898-6970 from 7AM - 7PM PST, Monday - Friday, or by email at support@storebound.com.

If the Sobro is placed unsteadily.	Adjust the placement of the Sobro by adjusting the four legs under the table. Rotate the legs to adjust.
The Sobro table is not chilling ingredients or beverages in the Cooler Drawer.	The Cooler Drawer may be too full. Remove some of the beverages or food in the Cooler Drawer. Ensure the drawer is closed properly. Ensure the Cooler Drawer Vent on the back of the Sobro is properly vented. If the table is still not chilling, call customer service.
The Cooler Drawer temperature is high.	The Cooler Drawer is not a refrigerator. It is a thermoelectric cooler and its temperature will generally be about 2°F cooler than the room you place the Sobro in. Ensure that the Cooler Drawer is always closed tightly. Do not place hot food in the Cooler Drawer. Do not overfill the Cooler Drawer. Make sure the Cooler Drawer Vent is not covered so that the Sobro is properly ventilated
Odor from Cooler Drawer.	Unit should be cleaned before using for the first time. This will clear any odors that may have been trapped during shipment. Clean unit and Cooler Drawer thoroughly. Any uncovered foods will create a odor.
The unit does not turn on.	Assure that the power cord is attached properly. Check to make sure the outlet the table is plugged into has power.
The Sobro Smart Side Table is not connecting to the Sobro App:	Your phone is not connected to the WiFi you chose in the Sobro App, or the password you entered in the Sobro App for that WiFi is incorrect. Each Sobro Side Table is only designed to connect to one Sobro App at a time. Ensure other mobile devices are not connected to the Sobro Smart Side Table simultaneously.
There is a burning odor during operation.	Unplug the unit and call customer service.
I cannot connect via Bluetooth.	Make sure that the Bluetooth functionality of your phone is turned on. Make sure that you are holding the Bluetooth button, on the Sobro, down for long enough. This might take up to 5 seconds and the Sobro will beep to alert you that it has activated its Bluetooth. Only one mobile device can connect to the Sobro's Bluetooth at a time. Ensure no other mobile devices are connected.
My phone won't charge wirelessly or charges slowly .	Not all phones are capable of wireless charging. Make sure that your phone has this capability. The Wireless Charging Pad has two charging "hot spots." One on either end of the pad. Make sure that your phone is placed on the side of the Wireless Charging Pad and not in the middle. Your phone case may be too thick to charge through. Try removing your phone case.
The Charging ports don't charge.	Make sure that your Sobro is connected to a power source. Do not connect devices drawing more than 800 watts as this may cause failure.

Warranty

SOBRO RESIDENTIAL LIMITED WARRANTY

FOR RESIDENTIAL INDOOR USE ONLY

FULL ONE YEAR WARRANTY*

For one year from the date of original delivery, this Sobro (a division of StoreBound, LLC) product warranty covers all parts and labor to repair or replace, under normal residential use, any part of the product that proves to be defective in material or workmanship. All service provided by StoreBound under the above warranty must be performed by a Sobro factory certified service, unless otherwise specified by StoreBound. Service will be provided during normal business hours.

FULL TWO YEAR SEALED SYSTEM WARRANTY*

For two years from the date of original delivery, this Sobro product warranty covers all parts and labor to repair or replace, under normal residential use, these parts that prove to be defective in materials or workmanship: compressor, condenser, evaporator, drier and all connecting tubing. All service provided by StoreBound under the above warranty must be performed by Sobro factory certified service, unless otherwise specified by StoreBound. Service will be provided during normal business hours.

TERMS APPLICABLE TO EACH WARRANTY

The warranty applies only to products installed for normal residential use. The warranty applies only to products installed in any one of the 50 states of the United States, the District of Columbia or the 10 provinces of Canada. This warranty does not cover any parts or labor to correct any defect caused by negligence, accident or improper use, maintenance, installation, service or repair.

THE REMEDIES DESCRIBED ABOVE FOR EACH WARRANTY ARE THE ONLY ONES THAT STOREBOUND, LLC WILL PROVIDE. EITHER UNDER THIS WARRANTY OR UNDER ANY WARRANTY ARISING BY OPERATION OF LAW, STOREBOUND, LLC WILL NOT BE RESPONSIBLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM THE BREACH OF THIS WARRANTY OR ANY OTHER WARRANTY, WHETHER EXPRESS, IMPLIED OR STATUTORY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other legal rights that vary from state to state.

To receive parts and/or service and the name of Sobro factory certified service nearest you, contact Customer Support at 1-800-898-6970 or email us at support@storebound.com.

*Any opening of the circuit board cabinet or Cooler Drawer parts cabinet by customer or non-Sobro factory certified service provider will void all warranties for this product.

- Frequency bands: 2412MHz ~ 2462MHz

- Transmit power: 14.13dBm (max)

FCC Statement

IMPORTANT NOTES FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Radiation Exposure Statement Caution: This Transmitter must be installed to provide a separation distance of at least 20 cm from all persons.

INDUSTRY CANADA:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Avertissement d'exposition radiofréquence: cet émetteur doit être installé à une distance d' au moins 20 cm par personne.
