

## Response to TCB EMC Findings

1. Please supply a detailed operational description of the transmitter.

Supplied.

2. Please specify how the transmitter complies at the band-edge of restricted band starting of 2483.5MHz.

Compliance demonstrated with delta-marker method. Please see “UBEdge Marker Delta Method.pdf”

3. The labels should include the privacy statement required by 15.214(c). Please provide revised labels and specify the label material.

Supplied. Please see new label samples and “label material.pdf” document

4. Please point out the section in the user's manual where we can find the warning against modifications required by 15.21 and RF exposure statements including co-location warning and measured SAR level.

An insert page has been prepared for the existing manuals. Please see manual insert.pdf document. Please also see “User Manual Final Version.pdf” document for all the required statements inserted in new manuals.
