Subjects

- 1 Request for Confidentiality of Documentation submitted**
- 2 Fee Payment to also cover Confidentiality**

Dear Mr. Tannahill,
Dear Ladies and Gentlemen,

Contrary to our „Non Confidentiality“ marking in the already submitted Form 731, we kindly ask FCC to change this status into the **Confidentiality Status**.

The already uploaded documentation was not checked for confidentiality. Therefore please check them so.

The reason for this is protection of the submitted material from being accessible by any party in this very specialized VHF/AM voice communications market segment.

We will therefore also include the confidentiality fee in the amount of \$ 145,00 together with the standard Fee payment of \$ 495,00 **totaling the Fee to \$ 640,00.**

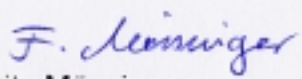

The appropriately filed Form 159 for this payment will be sent to FCC by courier on October 21, 2002

Thank you very much in advance for your good cooperation.

Sincerely yours
