The following information is a list of modifications that will be included in the production process for the above-referenced equipment.

\*The power value set in the firmware will be reduced.  
(Power will be lowered from 13.66dBm to 10.61dBm)

The EUT tested before is not carried into mass production stage and the power of our final products will be tuned as the value attested above.

I sign below and assure that all these changes will be done before the product selling to the public.

Thank you for your favorable considerations upon this statement.
