

## TO WHOM SO EVER IT MAY CONCERN

Gothenburg, 21<sup>th</sup> November 2011

### MODEL DIFFERENCE LETTER, FCC ID: BXZDB1

This letter is to explain the differences between the different variants of Ascom DB1 Base Station with the following model numbers:

**DB1-A3**  
**DB1-B3**  
**DB1-C3**  
**DB1-D3**  
**DB1-U3**

All DB1 base stations will use the same PCB and all other electrical components. All plastic parts are the same between the versions. The only difference between the model numbers are the branding.

For Brand:

- The branding plate is different (plastic marking).
- The logo is different (at label and in SW)

Very truly yours,

---

*Lena Kindmark*  
Certification Engineer
