ATTN.: Reviewing Engineer

FCC: BXZ DH10
 IC: 3724B-DH10.
 HVINs/Models: DH10-905048, DH10-905049

We hereby request Family Certification for the above mentioned HVINs/Models based on them being electrically, and physically very similar, apart from model name/number.

There are two different variants. Both variants share the same PCB and the same PCB antennas but has different component BOMs according to the functionality table below.

From an EMC/ESD point of view, worst case is DH10-905048.
 From a radio point of view, they are identical.

Below is a table of functional differences.

Functionality	DH10-905048	DH10-905049
Status LED	Yes	Yes
Display	Yes	Yes
Vibrator	Yes	Yes
Keyboard	Yes	Yes
Keyboard backlight	Yes	-
Alarm button	Yes	Yes
Left side buttons	Yes	Yes
Right side button	Yes	Yes
Accelerometer	Yes	Yes
Headset connector	Yes	Yes
Earpiece/receiver	Yes	Yes
Loudspeaker	Yes	Yes

Microphone	Yes	Yes
Charger interface	Yes	Yes
Current limiter	-	Yes
SD-card connector	Yes	Yes
DECT radio	Yes	Yes
Bluetooth radio	Yes	Yes

Mechanically there are some minor differences between the two variants.

- The battery has 5 poles on DH10-905049 instead of 3 poles on the DH10-905048.
- The battery is secured by screws on DH10-905049 instead of a sliding lock in DH10-905048.
