

## **MODEL DIFFERENCE LETTER, FCC ID: BXZDH3**

This letter is to explain the differences between the different Ascom DH3 Handsets with the following model numbers:

DH3-B  
DH3-A  
DH3-C  
DH3-D  
DH3-U

All DH3 handsets will use identical PCB and other electrical components, i.e. speakers (loudspeaker and receiver), microphone, battery, vibrator and display.

The only parts that will differ between the DH3 models are the plastic enclosures and markings on the case.
