## 2 DESCRIPTION

Following models are available for DH5. The differences for each model is described below correlated to the product structure overview in next chapter.

**DH5-AABAAA (Model Messenger)**

**DH5-AABCAA (Model Protector with No Movement/Man Down sensors)**

**DH5-AABEAA (Model Protector with No Movement/Man Down sensors and Pull Cord)**

**DH5-CAABAA (Avaya branded model Protector with alarm and without bluetooth)**

For Bluetooth: DH5-CAABAA is the only current model without Bluetooth, there just the hardware for Bluetooth is not mounted compared to the other models

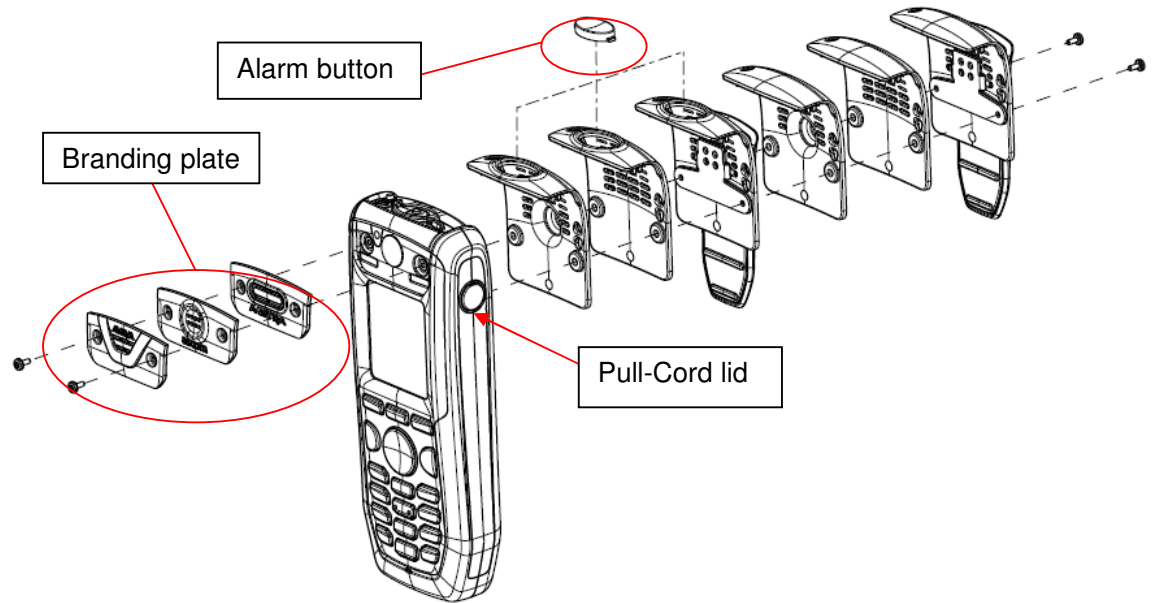

For Brand:

- The branding plate (plastic marking) and label is different

For Features:

1. The version without Alarm will not have the electronic parts for the pull cord switch and the NM/MD mounted on the PCB. And the alarm button on top of the handset are removed in the plastics, the electronic switch are still mounted.
2. The versions without NM/MD will not have the components for NM/MD mounted on the PCB.
3. The version without Pull-Cord will have a lid over the mechanical connection of the "pull cord".
