

TO WHOM IT MAY CONCERN

Gothenburg, 10:th July 2019

MODEL DIFFERENCE LETTER, IC: 3724B-WH2, FCC ID BXZWH2

This letter is to explain the differences between the different variants of Ascom WH2 handsets with the following model numbers:

Model	Description	HVIN
WH2-AAAA	WLAN handset talker	SH1-904200
WH2-ACAA	WLAN handset protector	SH1-904172

The C in the second position of the variant designation indicates that the model have added components IR/LF and man down/movement functionality, which also is the model which has been tested.

All RF-parts, plastic parts and physical dimensions are identical between all WH2 models.

Best regards,

Peter Söderberg
QA/RA Project manager
