Hi SS,

Please address following issues.

Q#1: Please provide the schematics and block diagram for WLAN portion.

Q#2: Since the EUT is capable of connecting to a PC that 15.105 user information is required to be added to the user manual. Please revise.

Besides, to comply with Part 2.1091 RF exposure, 20cm distance from antenna to user shall be maintained. Please add the related warning to the user manual.

Q#3: Please go over the conducted emission test from page 65 to 77. The test plot don't agree with test mode, please revise.

Best Regards,

Lucy

Dear Lucy,

There is only one antenna in this equipment. Please find attached the test reprt and antenna spec.

Best regards,

Engineer / EMC Dept. II  
Electronics Testing Center, Taiwan

Hi S.S,

Please provide all used antenna specifications and confirm the the modulation and data rate selected for final test in advance.  
The review may be continued after above information are received.

Best Regards,

Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
