RE: Confidentiality Request for Model BS200 FCC ID BYM BASE 6000

This letter serves as an official request for confidentiality under FCC Rule Section 0.459. We have requested that all Block Diagrams, Circuit Diagrams, schematics, Parts Lists and Operational Descriptions required to be submitted with this application be withheld from public review.

These documents contain detailed system and equipment description and related information about the product, which HM Electronics, Inc. considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, HM Electronics, Inc. considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Thomas P. Riches
Engineering Services Manager
