

## **Circuit Description**

BZB32BTL Portable Transmitter

Type of Emission: FM (F3E)

Antenna: Built-in antenna

Microphone unit: ECM and dynamic

Battery: 9VDC

Oscillation method: PLL synthesizer

Frequency range: 169 to 172 MHz

Noise reduction: compressor (log 2:1)

BZB32BTL is also a portable type transmitter and it operates a 9V antenna is also built-in, nondetachable type. There is one PCB inside and its ground lines are located in the PCB itself.
