

Model 1846 – Module Integration Instructions

Module Installation

This module will only be installed in Microsoft products and under the control of Microsoft.

Installation will be done in accordance with the following conditions:

Host device label (physical or, where allowed, electronic) will include:

Contains FCC ID:C3K1846

Contains IC:3048A-1846

Following compliance statements required by FCC and ISED Canada for both digital device and transmitter will be included in the host manual.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications to this device not expressly approved by Microsoft could void the user's authority to operate the device.

Le fonctionnement est soumis aux conditions suivantes: (1) cet appareil ne peut pas causer d'interférences, et (2) cet appareil doit accepter toute interférence reçue, notamment celles pouvant entraîner un dysfonctionnement. Toute modification sur cet appareil n'étant pas expressément approuvée par Microsoft pourrait annuler le droit de l'utilisateur à se servir de cet appareil.

The manual will also include the RF exposure warnings as shown below.

To comply with rf exposure requirements this equipment should be installed and operated at a minimum of 20 cm from your body.

Pour se conformer aux exigences relatives à l'exposition aux rf Cet équipement doit être installé et utilisé à une distance minimum de 20 cm de votre corps.

The antennas to be used are limited to:

The module is designed and tested to be used with the built-in antennas only. The builtin antennas cannot be replaced or augmented in any way without requiring additional authorization for operation.

Portable host systems will be subject to C2PC (FCC) and C4PC (Canada) filings to address RF exposure for the specific host + module combination.

Host systems will be evaluated against the requirements for Class A or Class B digital devices and approved using the relevant FCC and ISED procedures. Additional spot checks to verify compliance of host + module with 15.249 and RSS 210 as required by KDB 996369 D04 will be performed.
