Subject: Request to change in Identification.

To Whom It May Concern:

This Change of Identification request applies for a new FCC ID: as established in 47CFR 2.933(b) for a currently approved device. This application by Microsoft Corporation will establish a new FCC ID: [C3K1866] under Microsoft grantee code for purpose of marketing. The original grant to Intel will remain in effect.

The purpose of this change in identification is to obtain a new FCC ID for the Intel module and that FCC ID will be used for a host specific implementation. A C2PC will be filed to identify the host and host-specific implementation details.

A new label format on the module is not being submitted, as agreed through FCC KDB 784748 enquiry. Rather a sample of the host e-label is being provided.

Model: 1866 CAN ICES-3 (B)/NMB-3(B) Contains: FCC ID: C3K1866 as a change of ID from FCC ID: PD9AX201D2, Contains IC: 3048A-1866

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Per 2.933(b)

1. The original identification is PD9AX201D2
2. The original grant date is 11/20/2018
3. The equipment is electrically identical. Only the model name, trade name, and FCC ID number are different.
4. The original test results are applicable and representative of this changed device.

5. Exterior photographs are included in this application.

The following files are electronically submitted as attachments:

- Cover Letter
- External Photos
- FCC ID label format and location

A handwritten signature in blue ink that reads "Vishwas" followed by a stylized flourish.

Vishwas Varadanahalli Narayan
Radio Test Engineer,
Microsoft Corporation.
