Subject: Request to change in Identification.

To Whom It May Concern:

This Change of Identification request applies for a new FCC ID as established in 47CFR 2.933(b) for a currently approved device. This application by Microsoft Corporation will establish a new FCC ID: C3K2066 under Microsoft grantee code for purpose of marketing. The original grant to Intel will remain in effect.

The purpose of this change in identification is to obtain a new FCC ID for the Intel module and that FCC ID will be used for host specific implementation. This ID will be converted to new FCC IDs and C2PC will be filed on each to identify the host and host-specific implementation details.

A new label format on the module is not being submitted, as agreed through FCC KDB inquiry number 744487. Rather a sample of the host e-label is being provided.

This device complies with part 15 of the FCC Rules Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference that may cause undesired operation. CAN-ICES-3(B)/NMB-3(B) FCC ID C3K2066, Contains FCC ID C3K2066 as Change of ID to PD9AX201D2, IC 3048A-2066, Contains IC 3048A-2066

Per 2.933(b)

1. The original identification is PD9AX201D2.
2. The original grant date is 11/20/2018 and C2PC date is 02/08/2023.
3. The equipment is electrically identical. Only the model name, trade name, and FCC ID number are different.
4. The original test results are applicable and representative of this changed device.

5. Exterior photographs are included in this application.

The following files are electronically submitted as attachments:

- Cover Letter
- External Photos
- FCC ID label format and location

A handwritten signature in black ink, appearing to read "Nisha", written over a horizontal line.

Nisha Nandakumar,
Compliance Engineer
Microsoft Corporation
