Question #1: The model names DVR-S04 and DF-L71N were already included in the first Class II permissive change filing (approved on 9/2/2004). This is the second class II permissive change filing. But Class II permissive change cover letter was not included in the filing, please provide.

Question #2: This is for your information. You'd better list FCC ID on the test report. FCC does not track model name, but they do care FCC ID. In future, please always include FCC ID into the test report for all applications seeking FCC certification.

Best regards,
Helen Zhao
