WARNING: For continued operation against excessive vibration, install only with:
Type I (P124)F 400-1520, 50/15, 5 or 9A, 120/240 AC for primary and secondary (100/200V) units
2 for I (P124)F 400-1520, 50/15, 5 or 9A, 120/240 AC for remote control switch
3 for I (P124)F 400-1520, 50/15, 5 or 9A, 120/240 AC for test

CAUTION: When repairing, use check procedure of top vibrator and check motor circuit and replace any faulty components.

CAUTION: Certain internal parts are potentially hot, grounded and may present a risk of electric shock. Use safety warning labels provided.

Do not contact the internal parts for adjustment or repair.

For SERVICE, LOW VOLTAGE TRANSFORMER, TOUCH CONTROL, FUSE, THERM & THERM MOUNTING, SPEAKER, MECHANICAL, TUNING.

APPENDIX: For use protection against electric shock, use safety procedures as follows:
1. Do not touch the internal parts of the device.
2. Do not touch the internal parts of the device.
3. Do not touch the internal parts of the device.
4. Do not touch the internal parts of the device.
