January 11, 2002

Dear Sirs,

Please find enclosed an application for Type Acceptance of a transceiver under Parts 87 rules. This equipment is a VHF/UHF transceiver type 3060V2 for ground to air communication use in licensed installations.

Designed primarily for civil and defence applications in the aeronautical bands we request approval to use this equipment within the United States in the 118MHz to 136.975MHz band employing narrow-band AM modulation. This request is made on behalf of our customer – Boeing

Should you require further information in support of this application please do not hesitate to contact me.

Yours sincerely,

A. Horsfield.  
Consultant Engineer  
EMC and Approvals.
