of Transportation  
**Federal Aviation  
Administration**

SEP 28 2007

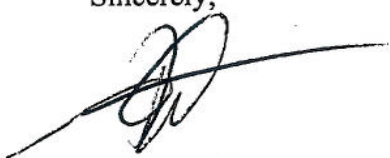

Mr. Andy Leimer  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Dear Mr. Leimer:

We have received the Park Air Systems letter for the Federal Communications Commission (FCC) certification application of the transceiver, Model M7X, FCC ID C8LBM7X, dated September 19, 2007, and have completed the subject review. We have no objection to the FCC certification of this very high frequency ground transceiver, which operate in the aviation protected band of 118.0 MHz to 136.975 MHz, providing 8.33 MHz will not be exercised within the US NAS.

If you require any additional information, please contact Ms. Annette Allender, Spectrum Planning and International Office, at (202) 267-3893.

Sincerely,

  
Robert A. Frazier  
Manager, Spectrum Planning and  
International Office
