

USB Interface Board

Outline

Thank you for purchasing the USB Interface Board.

Before use, read the *User's Manual* for installation and printer set up and the *Page Printer Reference Manual* for protocols.

Operation Condition

For printing using an USB Interface Board, the following is necessary:

- Personal computer or portable computer conforming to USB
- OS Windows98
- USB Cable

Installing the USB Interface Board

1. Verify that the printer power switch is set to the **O** side before installing the USB Interface Board.
2. To prevent the USB Interface Board from being destroyed by static electricity, observe the following:
 - Take out the USB Interface Board from the bag immediately before installing it on the printer
 - Touch a piece of grounded metal (e.g a locker) to discharge static electricity from your body before touching the USB Interface Board.
 - Do not touch the electric circuit parts and wiring of the USB Interface Board. Hold the USB Interface Board by its edge.

**Federal Communications Commission
Radio Frequency Interference Statement
for United States Users**

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measurements:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

 - Consult the dealer or an experienced radio / TV technician for help.
- FCC WARNING:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

(This equipment has been tested as CA04339-C841 of the model number.)

Notice for Canadian Users

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Cet appareil numérique de la Classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.
