Dear Dan,

Request Grant of Authorisation for FCC ID: CASTBA8B1

Tait Electronics Ltd wishes to add new 'Tait Simulcast' Emission Designators to the Grant of its Base Station Transceiver.

In line with the FCC's direction, that at the next C2PC exercise we separate the three Power Amplifiers by applying for a Grant of Authorisation for each RF Power level, this our application for a Grant of Authorisation for the 50 Watt Base Station Transceiver, FCC ID: CASTBA8B1.

By agreement with you, I am submitting the documentation including foundational reports for the FCC ID:CASTBAB1 Base Station Transceiver, plus an additional Test Report 2685 that documents the 50W transceiver's performance using Tait Simulcast modulation.

Confidentiality is sought for the files being submitted

Our finance department will contact you with a Purchase Order for Quote EEE-Q26708TCB.

Please invoice us USD\$1,000.00 for your services and we will pay this by telegraphic transfer.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Des Fox', is written over a thin horizontal line.

Des Fox
