Dear Rick,

Subject: **TCB Services for a Class 2 Permissive Change on FCC ID: CASTBAH0A**

Reference: Elite Quote EEE-Q21497TCBC2PC

We have developed a 12 Volt powered, 5W and 50W Power Amplifier and wish to add them to the Base Station Grant of Authorisation by the Class 2 Permissive process. This equipment has degraded performance, compared to the Power Amplifiers originally reported to the Commission at the time of original certification.

This request for services is being submitted to meet the FCC 'end of the year' requirements, so this letter is the proof that we have submitted before the cutoff date, in the event that processing by Elite carries over into the new year.

I have arranged with our finance division for this submission (USD\$1000) to be pre paid before Christmas using our company credit card, the details you already have.

Please delay the processing of this submission EEE-Q21497TCBC2PC, until the outcome of Elite Job EEE-Q21235C2PC is assured/confirmed by Elite.

(The objective of EEE-Q21235C2PC is to add 5W Power Amplifier/Digital Emission Designators/Claim improved Freq Stability/Add Rule Parts/Obtain additional FCC Identifier CASTBAH0A)

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Des Fox'.
