To whom it may concern

T857-1X-XXXX

The following information is in the Service Manual provided as attachment 857_8a4.pdf, and can be found on page c1.15 (T856/857 General Information) T857 Standard Product Range.

Caution: T857-1X-XXXX Product Types

The 406 to 406.1MHz frequency range is reserved worldwide for use by Distress Beacons. Do not program excitors to operate in this frequency range.

Future releases of the PGM800Win Programming Software will prevent the Frequency Band 406 to 406.1MHZ from being programmed into the radios.

Rob Weeks

Compliance Laboratory Technician
