**Modification to Submission CASTEL0053 / EA232536**

Dear Sir / Madam,

The FCC Form 731 submission (TOP-C2x20-TO Class 2 Permissive Change/Modification) contained incorrect information.

Please correct it as follows

- Item 11 – Equipment will be operated under FCC Rule Part(s): CFR47 Part 90, Part 90 sub part T, Part 95, Part 97
- Item 13 - Frequency range. The correct frequency range should be 175-225 MHz.
- This application is for a Modification, not a Class 2 Permissive Change. (The test report, 1718 Report.doc, contains the heading 'Class2 Permissive Change' which should read 'Modification').

Yours faithfully,

Des Fox
