Dear Sir / Madam

Subject: **Class 2 Permissive Change Application**

May I please make a correction to the 731 Form associated with

FCC ID : **CASTMAH5A**
Confirmation Number : **EA528378**

In completing the 731 form, my objective was to apply the rule parts 22, 74, 90, 95A to each Emission Designator.

Something occurred on my last entry for 8K40F1D. I may have taken my finger off the Ctrl Key and everything was deselected except my last entry, Rule Part 95A. I could not see this on the screen due to the scrolling nature of the Rule Part selection box, and I saved the 731 Form in good faith. Is it possible that you can please amend the **8K40F1D** line so that Rule parts **22, 74, 90** are added to **95A**

The original letter is copied to confirm the objective of my submission.

This is an application to add by means of Class 2 Permissive change, additional Emission Designators

- *8K40F1E*
 - *8K40F1D*
- and to add Rule Parts*
- *74*
 - *95A*

The additional test report data for C4FM modulation is uploaded as a PDF file labelled 1919 TM8100 FCC 400~470MHz Permissive Change Report

I will be very grateful if you can add the missing Rule Parts.
Seasons greetings to you, enjoy a safe Christmas time.

Yours sincerely,

Des Fox
Compliance Co ordinator
