Wi-Fi Functionality Statement

Dear Russell,

The TPDH7A digital portable Schematics , Parts List and Internal Photo information, submitted as exhibits, show that this model has Wi-Fi functionality available as a part of its design.

Tait Limited advises that the Wi-Fi functionality has not been implemented at this first stage of certification, and has not been tested.

In the future, when we are ready to implement the Wi-Fi feature, we will add the functionality by reassessment under a new FCC Identifier..

Yours sincerely,
