Subject: Extended Frequencies Justification for Certification of Transmitter with FCC ID: CASTPEH7F

Dear Sir/Madam,

This transmitter was designed to operate in following frequency ranges: 450-520MHz  
To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Tait International Limited is requesting that the FCC lists the frequencies 450-520MHz, under FCC Rule Parts 22, 74 and 90 on the FCC Grant.

Tait International Limited attests that the TP3300 Two Way Radio will not be marketed to USA users with the frequency band which is not allowed by the rule Parts 22, 74 and 90. Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
