This is to or to marketing or release of the product to the public. notify ATCB in the event information regarding the product B will then release the documents listed above for public 705.
Sinc	erely,		
Ву:	Edward a. Thous, (Sig	<u>Test / EMC Engineer</u> gnature/Title ²)	Edward A. Thomsen (Print name)

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

⁻ Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate authorized agent letter has been provided. Letters should be placed on appropriate letterhead.
