RE: FCC ID: CBF-LTOCU-M_ATCB003152
Attention: Greg Snyder / Brian Dettling

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the company number (1339) does not exist in the IC data base. Please provide a corrected IC application form and label using a valid IC company number.
2. Please note that while the device appears to be of a low enough power not to require SAR testing when used in an occupational/controlled rf environment, rf exposure must still be addressed. Please note that it must still be justified for use in a controlled environment in order to meet this exception. Please provide an rf exhibit that show occupational use.
3. Please provide a manual that shows this device is limited to the occupational/controlled use environment.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
