Subject: COMMAX Co., Ltd., FCC ID: CCEWLO24TX, Assessment NO.:
AN07T6788, Notice#1

Question #1: The operational description 2 is a document to explain the
receiver module, this filing is for a TX. Please provide correct
operational description for a transmitter module.

Question #2: Please indicate TX module on the schematics. Please also
indicate the antenna location on the schematics and on the internal
photos.

Question #3: The user manual contains an incomplete 15.21 statement
which
may cause the confusion: "Caution: for compliance could void the user's
authority to operate the equipment. " Please note compliance should not
void
the user's authority to operation the equipment. Please update the
manual.

Question #4: The device was tested per FCC15.249, so the correct
equipment
class should be "DXX – Part 15 Low power communication transmitters",
not
"DTS – Part 15 Digital Transmission Systems", which is for 15.247

filings.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue
on the above referenced application. Failure to provide the requested
information within 30 days of the original e-mail date may result in
application dismissal and forfeiture of the filing fee. Also, please note
that partial responses increase processing time and should not be
submitted. Any questions about the content of this correspondence should be
directed to the e-mail address listed below the name of the sender.
