To Whom It May Concern:

Regarding CCKPC0114R9 label placement for this application, Digital Monitoring Products wishes to place the label inside the enclosure lid. This location will ensure the end user is able to view the label before operation. The identifier label will be readily viewable upon installation and each time the cover is opened. The equipment is required to be mounted before operation, thus exposing the label before operation. This location will help ensure the longevity of the label as this equipment may be in service in harsh environments.

If you have any questions or comments, please do not hesitate to contact me.
