Newberry, FL 32669

Applicant: Digital Monitoring Products, Inc.
2500 North Partnership Boulevard
Springfield, MO 65802

Equipment: FCC ID: CCKPC0117
CORES number: 0009 86 9348

FCC Rules: Parts 2 and 15.249

To Whom It May Concern:

The change to the original design addresses changing of two certified modules included in the product. Original certification tested design with cellular modem module, which is now replaced with WiFi module. The addition of WiFi transceiver module FCC ID: XM5-SM2144SMT is addressed in this application. The circuitry change replaces interface circuitry to original cellular module with interface circuitry for the WiFi module. Testing was performed to verify the design continues to comply with all applicable rules and requirements of the Code of Federal regulation 47 and Industry Canada. Testing confirmed the modifications do not degrade the characteristics allowable and acceptable by the regulations. The transmitter is electrically identical to the original design and application. The modification provided no change to the certified operating power or frequency band of the application. The WiFi transceiver module continued to function in compliance with its authorization. The original transmitter circuitry remains electrically identical to original design and application.

Should you require any further information, please contact the undersigned.

Thank you for your consideration in this matter.

Sincerely,

Scot Rogers
