To Whom It May Concern:

Regarding CCKPC0225 label placement for this application, Digital Monitoring Products wishes to print the information directly onto the device circuit board. This location will ensure the end user is always able to view the information before operation. The identifier will be readily viewable upon installation and each time the cover is removed. Printing the identifier in this location will help ensure the longevity of the label as this equipment may be in service in harsh environments.

If you have any questions or comments, please do not hesitate to contact me.
