RE: Sam Ash Music Corporation

FCC ID: CCRST5

I have a few comments on the above referenced Application.

- 1) Please comment on the new conducted power given on page 21 of the test report. Was this performed modulated or unmodulated. Please note that 74.861 limits are specified as unmodulated power.
- 2) The emission designator does not appear to have been changed in the users manual according to your response to previous question 6). Please correct.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
