September 4, 2014

Dear Mr. Dichoso:

The above-referenced device is physically incorporated into electric utility meters sold by General Electric Company's ("GE") Meters Division both to electric utility companies and to equipment distributors. Prior to July 14th 2014 two letters were transposed on the exterior label of meters sold that contain the device such that the meters reflect FCC ID: CTD52ESS and not the correct FCC ID: CDT52ESS. GE has corrected the discrepancy and the exterior label on all units supplied after July 14th 2014 reflect the correct FCC ID: CDT52ESS. GE has notified its customers of this issue.

Should you have any further questions or concerns, please feel free to contact the undersigned at any time.

Sincerely,

A handwritten signature in black ink, appearing to read 'Errol Baun'.

Errol Baun
Quality Manager Meter
