

## CIRCUIT DESCRIPTION

This version of the 5821-1 is electricaly identical to the 5821-1 but uses Lead Free RoHS Compliant parts. It is a 345 MHz. Transmitter. Transistor Q1 Etc., switches Oscillator Q2 ON. Oscillator Q2 Etc., FDE is SAW Resonator YL1 Transistors Q3 & Q4 Etc., act as the Modulator for the PA Q5 Etc., who's output is matched to the Antenna ANT. by C15 and C16.
