This is to to marketing or release of the product to the public. Applicant in the event information regarding the product or the product is the documents listed above for public disclosure pursuant to
Sincerely, By: Mark J	Christ 1/E	Engineering Manager Mark Schmidt

⁻ The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
